Beautiful & healthy skin through quality sleep

Innovative beauty & healthcare technology

A Quality Blanket is like a Second Skin.

Ampower Platinum is 100% made in Japan. The fabric is made of platinum fibre and superior cotton that is soft and silky smooth to the touch. Its superior breathability helps resist the room's cool temperature and dampness, promote metabolism and delay ageing. With quality sleep assured, you will wake up feeling restored, refreshed and rejuvenated, and start your day with renewed energy and vitality.

What is Ampower Platinum?

Ampower Platinum is the result of the latest weaving technology based on a scientific proportion consisting of 14 types of natural ore. Unlike conventional spray coating technique-produced materials, Ampower Platinum is extremely durable and can withstand multiple washing or scrubbing.

This is No Ordinary Blanket

Ampower Platinum is the latest invention in the sleep health industry. Its unique platinum technology from Japan is the answer to the dream of many health advocators.

It requires no electricity or operation steps. All you need to do is enjoy a good night sleep with the blanket over you to enjoy its anti-ageing effects and wake up feeling rejuvenated and youthful again. It's that simple.

It produces fast results and it is safe to use with no side effects. It is also suitable for the whole family.

Ampower Platinum acts like your invisible fitness coach and beauty therapist that helps you regain health and beautiful skin.

An Artwork in the Bedroom

Ampower Platinum utilises the unique traditional floral print artwork from Japan, creating a delicate, elegant design for a soothing Japanese-influenced ambience.

One Trillion Vibrations Per Second

Ampower Platinum produces one trillion vibrations per second that helps change the structure of the water molecules in the human body. With a smaller cluster of water molecules, they become more active, ensuring our body stay hydrated and healthy.

This in turn helps promote the lymphatic circulation, accelerate toxin removal from the body, and strengthen the body defence against wind, cold and dampness. It also helps enhance the body immunity, thus revitalising the body and achieving a bright, ruddy complexion.

Lymph: The key to anti-ageing

The lymphatic system plays an important role in the human body as it is responsible for detoxification. The human body consists of two circulation pathways: one is the blood vessels responsible for blood circulation, and the other one is the lymph vessels responsible for lymph circulation. The blood and lymphatic circulations work hand in hand to protect and maintain our health.

Lymph nodes are located throughout the body, but the largest groupings are found in the face, neck, armpits and waist areas. There are about 10 billion active lymphocytes in a healthy human body, and the lymphatic system is able to remove up to 99% of soluble toxins and metabolic wastes. While the heart acts as a pump to deliver blood and taking just 40 seconds to circulate blood throughout the body, the lymph is circulated via daily activities or massages, and it takes 8 to 12 hours to circulate throughout the body.

Ampower Platinum which produces one trillion vibrations per second help shorten the cycle of lymph circulation. This ensures effective removal of body waste through lymph and reducing of waste accumulation in the body. In addition to these health benefits, it also helps reveal a brighter, smoother, softer and ruddy complexion, as well as eliminating edema to restore the body shape.

The blood and lymph circulation resemble the water supply (blood vessel) and sewage system (lymph vessel) in our house. In order to keep the house (human body) clean, we need to ensure both the water supply and sewage system are working smoothly.
